The Working Artist - Caroline Aiken

# Artist Growth Presents The Working Artist.

**Caroline Aiken can't be stopped.**

Independent to the bone with seven CDs, and with a Grammy nomination for Best Contemporary Folk CD in 2006, Caroline Aiken has performed numerous times to benefit thousands of causes, and has played thousands of shows in her 40-plus years of touring at home and abroad. Writing,

producing shows, festivals, theaters, and series, Caroline has also served 12 years as Entertainment Director for the Atlanta Dogwood Festival. She has recorded with and shared stages with The Indigo Girls, Bonnie Raitt, and has been a guest performer at major venues with them such as San Antonio's Majestic Theater, Denver's Red Rocks, and Berkeley's Greek Theater. This is **The Working Artist**.

To put it in her own words, recently Carolyn has "been on the road for four months, carried everything I'd need to gig including PA, piano, guitars, CDS, promotion, cook stoves, food, tent, camping gear, bicycle, and 2 dogs. All in a '92 Nissan king cab and trailer for over 15,000 miles and 120+ performances all over." That's a mouth full. We are very happy to feature her this week as Artist Growth's Working Artist, well..... because Caroline IS the working artist. She has succeeded independently for decades on end booking her own shows and planning tours. It all started back in 1968 when she helped a band out of New York on some harmonies and ended up a full member. After being asked to open for legendary guitar picker Doc Watson in 1979, she began a career as an opening act for many national performers.
